

## Family Friday

Sharing family stories

Engaging and celebrating families is at the heart of supporting our youngest learners. NAEYC applauds family members' role as young children's first and most important teachers.

Start your day with the introductory video on our website. Celebrate those who support young learners. Family stories and pictures are shared on this day to acknowledge the role families play in a child's learning. Parents can read a favorite children's book to their early learner or take their child on a picnic. Please share photos throughout the day with your teacher.
